THEY ARE HERE!

Literally just off the boat (and not even to the photo shoot yet), **OmniShield AMS Anti-Microbial Gloves** have hit the US shores and are ready for your shelves.

Three and one half years in the making and now a real "Built-In" anti-microbial glove product for your non-medical glove needs. This revolutionary technology is raising awareness of food safety whenever Omni Representatives, our distributors and end user customers get together.

Our distributors will be amazed at how much attention our new anti-microbial gloves are receiving in the field. Our average daily web site hits have increased over 1,000% since June when the OmniShield AMS gloves were announced.

Another highlight is our many customers and prospective customers interest and awareness of DOP and DEHP as well. As you know, **all** Omni Brand Vinyl gloves (food service, multi-purpose and medical) are DOP/DEHP Free!

For ease in ordering, here are the catalog numbers for our new gloves.
