OmniTrust (Powdered) Latex Gloves

Who are we? – Omni International LLC is a very progressive supplier of gloves in markets including Medical/Dental (all healthcare), food service, retail/consumer, industrial/janitorial and clean room.

What is a Powdered Latex Examination Glove? Powdered Latex examination gloves are made from natural rubber latex. Latex is more form fitting to the hand than vinyl and offers significantly more stretch. Omni Latex powdered gloves contain a very light amount of corn starch. Most every latex examination glove for North America was made on the continent until the mid-to-late 1980's. At that point in time, Malaysia and Indonesia, where the raw latex material is found, began manufacturing latex gloves. Manufacturing was relocated overseas primarily, due to the cost of shipping raw material to North America, and lower labor costs

What is an OmniTrust™ Latex Powdered - #111 Series- Our Lightly powdered examination gloves are manufactured with a special bisque finish for enhanced grip control. OmniTrust™ Latex Powdered examination gloves contain less than 200µg of protein per gram. Available in sizes Small through Extra Large.

Features and Benefits

Latex – For the person who prefers a latex feel and conformity to the hand

Low Protein – Less than 200µg of total extractable protein per gram

Lightly Powdered with Corn starch - Makes donning the glove easier with moist hands as well as dry.

Micro-Textured - Offers the wearer complete hand texture with a more tactile texture on the fingertips. Great for grasping glassware, instrumentation

Perfect for many markets especially:

Medical – An excellent glove for instrument utilization as well as grasping syringes, needles and glassware.

Veterinary – Excellent for holding small animals, especially those with slick skins.

Long Term Care – The textured finger tips and micro-texture glove body allow enough texture to grip the skin/clothing for maneuvering the ambulatory patient.

SALES WORD HIGHLIGHTS - Special Bisque Finish - Micro-Textured for grip control without loss of tactile sensitivity – Lightly Powdered - More Stretch - 100 per box - Flat Packed for Optimum Dispensing

Ordering Information. Packaged 100 per box, 10 boxes per case, 1,000 gloves per case.
